EDUCATION

Lambda School Academy of Computer Science and Web Development

· Oct. 2019 to Current

Lambda School is a 9+ month Software Engineering Academy that provides an immersive hands-on curriculum with a focus on computer science, software engineering, and web development.

- Approached coding challenges with and without pair programming.
- Utilized agile software development and Git workflow on all projects.
- Gained hands-on experience with client and server testing.
- Completed all curriculum course work including: HTML5, CSS, Javascript, React, Redux, Node, Express, SQLite3
- Wrote production-ready code using React, Redux, Node and Express to build single page applications.

Manhattan College · Sept. 2010 to May 2014

B.S. Mechanical Engineering

PROJECTS

Moodbot

Feb. 2019 to Mar. 2019

Moodbot is an app that helps project managers keep track of team moral during a team's lifecycle. It provides the manager with the ability to send slack surveys to team members, record responses and display reports.

- This was a team project consisting of 6 members and required 5 weeks to develop.
- Greatly contributed to internal api's, third party api integration, database configuration, server/database deployment and management of team members throughout the projects duration.
- The team experienced applying new third party api's like Auth0, Stripe, Slack and Graph.js.
- Overall architecture consisted of CSS, React-Strap, React.js, Redux.js, Node.js, Express.js and PostgreSQL.

EXPERIENCE

Lambda School Academy of Computer Science and Web Development

Remote

[Teaching Assistant - Web Development](#) ·

Mar. 2019 to Apr. 2019

- Served as a medium between the class instructor and team members, providing materials, references, guidelines and instruction when required.
- Provided over watch during the project duration, spotting pitfalls regarding teammate miscommunication, and improper or poorly thought out solutions. Responded with precise guidelines in order to steer them in a productive direction.
- Helped solve looming problems associated with deployment, database/server architecture and version control.
- Led daily standup meetings for 10+ students to facilitate communication between the team members, providing the opportunity to speak out about concerns or problems regarding the project state.

Rose Wood Shop

Portchester, NY

[Estimator/Drafter](#) · May 2016 to Current

- Served as the project drafter creating detailed shop drawings for custom cabinet manufacturing.
- Served as a project estimator, reviewed architectural drawings and calculated pricing for project proposals.

Collado Engineering

White Plains, NY

[Mechanical/Plumbing/Fire Protection Consulting Engineer](#)

· Sept. 2014 to Oct. 2016

- Served as a project manager and engineer to manage teams of 3+ engineers in a fast-paced working environment.
- Produced complete designs of mechanical, plumbing and fire protection building systems in the Tri State Area.
- Collaborated with owners, architects, building officials, and contractors to provide these solutions.
